WORK EXPERIENCE

Operations Manager, Meghana Auto Agencies, India

Sep 2023 – Mar 2026

- Directed daily operations across Sales, Service & Spare Parts, implementing performance frameworks that achieved monthly dealership targets and improved workflow throughput by ~25% while significantly elevating the customer experience.
- Launched a structured performance management and coaching programme for 12 staff, conducting regular 1:1s and quarterly reviews, reducing staff turnover by 30% year-on-year and boosting overall team engagement scores.
- Standardised and rolled out SOPs across all departments, raising quality assurance standards and reducing process errors.
- Built and maintained KPI dashboards to track weekly and monthly business objectives, presenting actionable insights to senior stakeholders.
- Implemented inventory control using DMS software, achieving 100% stock accuracy and zero stockout incidents for spare parts and consumables, which significantly reduced overhead costs and minimized waste.
- Coordinated cross-functional teams to resolve escalations, improve satisfaction, and drive improvement initiatives.

Payment Operations Analyst, Abtran, Ireland

Apr 2023 – Aug 2023

- Managed and prioritised live payment queues across email, phone, and live chat channels, maintaining 100% SLA compliance and high-quality standards in a fast-paced omnichannel environment while delivering an exceptional customer experience.
- Served as CRM data steward in Salesforce, ensuring accurate client records, tags, and site profile configurations with 100% data integrity across all accounts to support strategic reporting and sales initiatives.
- Collaborated with operations, finance, and client services to meet objectives and resolve escalations within SLAs.
- Produced and presented operational KPI reports to stakeholders, supporting service improvement and efficiency.

Trust & Safety Analyst, Accenture, Ireland

Nov 2022 – Apr 2023

- Investigated and resolved content safety and account support issues within SLA turnaround times, consistently maintaining top-tier quality assurance scores while effectively minimizing potential risks to the overall user experience.
- Applied empathy and strong communication skills to sensitive user enquiries, achieving high CSAT ratings.
- Monitored evolving client policies and guidelines, resolving complex escalations in line with Trust & Safety procedures.
- Safeguarded digital platforms through content moderation and collaborated with international language teams across multiple global sites to align regional strategies, improve daily workflows, and ensure compliance.

Customer Support Analyst, Telus International, Ireland

Dec 2021 – Sep 2022

- Delivered omnichannel customer support (voice, email, live chat) across global markets, investigating and resolving complex user cases to a high quality standard, consistently exceeding our internal customer satisfaction targets.
- Used Salesforce CRM to log, manage, and track customer interactions, ensuring accurate data recording and seamless case handover between different shifts and cross functional teams for optimal efficiency.
- Identified, escalated, and followed up on system bugs and product issues during daily operations by collaborating directly with the engineering teams, contributing to faster resolution times and improved user experience.
- Communicated effectively with stakeholders, acting as a trusted escalation point for complex queries.

Data Operations Associate (Tron), Amazon, India

Sep 2019 – Jun 2021

- Consistently achieved productivity and quality metrics under aggressive deadlines in high-volume data operations.
- Led onboarding and training for new team members on pilot projects (MMDA, Proxemics), which significantly boosted overall team productivity while accelerating ramp-up time and maintaining quality benchmarks.
- Analysed performance metrics and process data over 6 months to drive business outcomes and identify exceptions.
